# **STARTERKIT - INSTRUCTION**

## QUICK-START GUIDE

1

Connect the access point to your network via LAN cable.

**Alternative:** Connection via W-LAN (access data are noted on the underside of the access point).

2

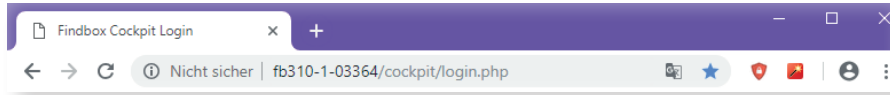

Connect the power supply unit to the access point.

3

After initialization (duration approx. 10 minutes), start your Internet browser (e. g. Microsoft EDGE, Mozilla Firefox, Google Chrome).

4

Enter **http://"**BoxID**"/cockpit/login.php** (the BoxID is located on the underside of the access point) in the address line or alternatively the IP address of the access point.

5

Log in with the following standard user data:

**User Name:** findbox@findbox.de

**Password:** password

A screenshot of a login page for "sesimagotag". The page has a light gray header with the logo. Below the header, it says "Login to your account" and "Enter your credentials". There is a yellow input field for the email address "findbox@findbox.de" and a white input field for the password, which is masked with dots. Below the password field is a blue "Login" button with a right arrow. At the bottom, the IP addresses are listed: "IP (eth0): 192.168.2.52" and "IP (wlan0): 192.168.23.1".

## Connecting labels to the system

6

Store or create on

*Products and Prices* → *Products* →  
*Add product*

one or more articles and  
click *Send*.

fbOS

Add Article

ARTICLE DETAILS

Barcode:  
Barcode

Location:  
My Location

Category:  
Select Category

Name 1:  
Name 1

Name 2:

**Alternative:** Import products and articles as CSV or XML tables.

7

Click on *ESL Management* → *Labels* → *Add Labels* in the input field *Label ID*. Enter the ID of the desired label or scan the label with an appropriate scanner (available separately).

8

Under *Barcode*, select the article to be associated with the label. If several articles are to be displayed, select a *slot* for each article. Select the slot and location according to the screenshot.

9

If you have matched the desired label with the corresponding articles, click on *Send* at the bottom right.

The screenshot displays the 'Add Label' web interface. The left sidebar contains a menu with 'ESL Management' expanded, showing 'Labels' and 'Add Label'. The main content area has a 'LABEL DETAILS' section with the following fields: 'Label ID' (with a document icon and a blue circle around the input field), 'Barcode' (with a blue circle around the input field), 'Slot' (set to '0 - default'), and 'Label Group' (set to 'Select Label Groups'). A blue arrow points from the 'Send' button in the instructions to the 'Add Label' button at the bottom right of the sidebar.

**The label will now accept the entered data within a short time and show it on the display.**

# Selection of templates

10

Under *ESL Management* → *Templates* you will find a list of the saved templates for the labels.

The right side of the screen also shows which labels are compatible with which template.

If you want to design your labels, use the template generator.

Manage Templates - fbOS v3.11.0 X

ESL Management: Activities, Labels, Label Groups, **Templates**, Template Generator

+ Add Template

Filter: [ ] Show

Template ID	Preview	Name
1	 1256 Manufacturer <b>Name 1</b> Name 2 <b>1,99 €</b>	1
2	 1256 Manufacturer <b>Name 1</b>	2

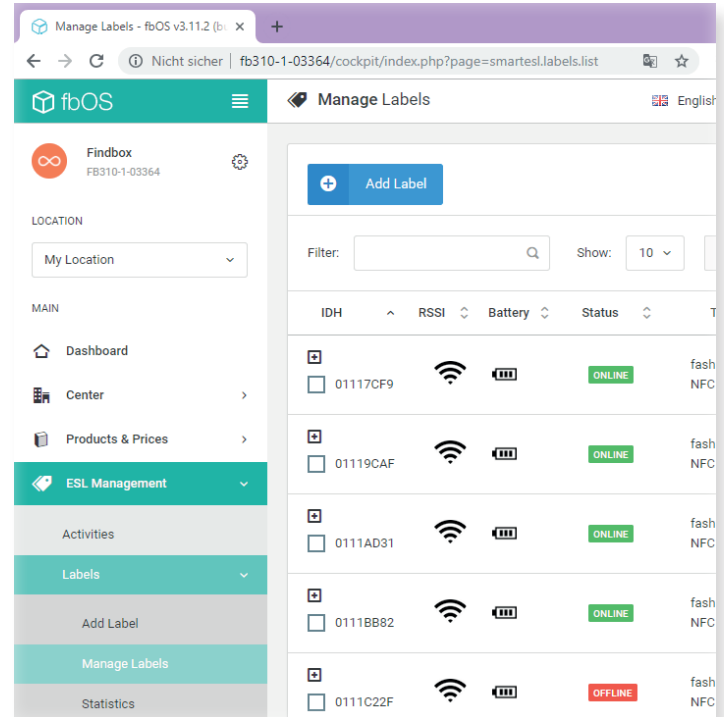

11

To assign a different template to a label, call up the label list under *ESL Management* → *Labels* → *Manage labels*.

Select the requested label and click the *Select Template* button.

All compatible templates will now be displayed. Search for the template you want and click *Select*.

The label will now automatically update itself with the new design.

**For a detailed consultation and explanation about the functionality of fbOS and our e-shelf-labels our service team is at your disposal at any time. Please note that additional costs may be incurred.**
